# TARA ROSE

SALONS

## *Relocation*

*Here's what we cover.*

# Making the Move

*Here's what we cover.*

Moving country to do hair is a big decision. We've made it simple, and safe. For stylists joining on the Employed path, we cover the parts that usually make a move feel like a gamble. Before you arrive, before your column is full, before you've had time to prove what you can do, you are protected.

## WHAT YOU EARN

### The Safety Net

- Visa sponsored and fully covered by TRS.
- Health insurance covered by TRS from day one.
- Guaranteed income, whichever is higher: your commission or your guarantee.
- Colour and stock fully provided, no personal outlay required.
- 30 days paid annual leave every year.
- A predictable 4 day, 44 hour working week from day one.

*You are not starting from scratch. You are joining something already built.*

A client base that already trusts us, a real team across four locations, and mentoring built in from day one. Dubai and Abu Dhabi are cities where stylists rarely regret the move.

*Conversations are always welcome, and always confidential.*
